Message from the Principal

Early in May, I attended the Apple Distinguished Schools Global Summit in Chicago, Illinois in the US. HELP International School represented Malaysia, and schools across the Asia Pacific region. It was rewarding to be commended as the most innovative schools in the world by Apple Education. It was a real honour to share our story and hear other Apple Distinguished Schools from around the world sharing great practice. HIS is now part of a global community in pursuit of excellence in education. We are an organisation moving at a fast pace and we are fortunate to be able to move forward with the support of a special Board of Governors, a group of leaders for whom innovation and excellence in education is a guiding principle.

Having witnessed the historic changes in Malaysia earlier this month, it is clear to me that we are also moving forward with our young people. Many of them will be future leaders in the community, in business, in education and in politics. Whichever life journey our students embark upon following their time at HIS, we hope they become leaders with compassion and respect for others.

How do we here at HIS develop young leaders? We start with high expectations for all. We try to instil the value of hard work. We look to ensuring that we trust them and in return, they trust us. We aim to develop resilience. We want to give them a vision for success and an understanding that success arrives in many different ways. We also recognise that becoming a leader is not the end of a process but a milestone on a journey to responsibility. We lead by example. We develop educators as school leaders, investing in people to build capacity and sustainability. We share what we have learned on this fantastic journey and we listen to how we can make what is good into something great.

Leaders aren't born, they are made. They are made by hard effort, which is the price which all of us must pay to achieve any goal which is worthwhile.

~ Vince Lombardi Jr .

Recently, HIS hosted the second in a series of innovation@schools events, with a number of KL schools attending. We are embracing an exciting training project with Cambridge, launching the PDQ Award for twenty-five of our staff, to be run over the summer break, and we are also hosting a FOBISIA visit in June. We continue our work with Eco Schools and look forward to making a difference in our school environment.

We have an exciting line-up of events for the end of the year, including our Year 13 Graduation, our Leavers Ball, field trips, award ceremonies and, importantly, looking ahead to our end-of-year assessments, Checkpoints and the conclusion of our IGCSE & A-Level examinations. Students have also sat for HSK, DELE and DELF exams and we wish all of them every success. We look forward to reviewing their achievements in August.

I am immensely proud of our school and, as we approach our fifth year celebration next January, I invite students, staff and parents to share their ideas on how we can celebrate and mark this occasion in as many special ways as possible. Please email me your contributions at davina.mccarthy@kl.his.edu.my and I look forward to sharing your ideas.

Vita ad Plenitudinem
Davina McCarthy

With Mr Matt Marson at the Apple Distinguished Schools Global Summit in Chicago, Illinois, USA.

In Art, Year 9 students studied the art movement Surrealism and were asked to make Surreal sculptures.

For inspiration they were shown Magritte's sculpture called "The Future of Statues", which features the death mask of Napoleon Bonaparte. The students took casts of their own faces using "Modroc" and these were going to be made into individual sculptures with unique surface designs. During the process of making art, things can change. This project changed into one large "site-specific" sculptural installation, using the most successful casts and the number that would fit around the pillar. All the students of Year 9 worked on the sculpture collaboratively, showing great team spirit and ingenuity. Apart from the masks, the whole structure of the sculpture is made from recycled material - packaging for computers and projectors.

PRESCHOOL & PRIMARY

Preschool IEYC

'Toy Shop'

Students had the opportunity to visit a toy shop set up by the teachers and experienced shopping. They decided on their purchases based on how much money they were given. They had the opportunity to role-play, taking turns to be the shop manager, cashier and security guard. Students also had a chance to turn toymaker, creating a toy of their choice.

Year 1 IPC

'The Stories People Tell'

The students showcased their cooperative skills when working together to make up their own imaginative stories using props and a story plot. They planned, rehearsed and finally performed their stories to the whole class. The students worked hard to deliver their fantastic stories and we were all kept well entertained with plenty of laughter to be had!

Year 2 IPC 'Push Me, Pull You'

The students were asked to plan and build a moving toy, to implement what they have learnt about one of the following; Buoyancy, Gravity, Friction or Air resistance. They all did a fantastic job at working independently to research and plan their projects in great detail. They worked effectively as part of their team, and proudly presented their very-own-made toys.

As part of our last IPC unit on 'Inventions that Changed the World', we learnt about hydropower. It's a growing source of electricity in Africa, which is the continent of our adopted countries. The Year 3s investigated hydropower by designing a route for water to flow from the top to the bottom of the school garden fence. Our aim was to turn a water wheel and understand that gravity drives hydropower.

Year 3 IPC 'Inventions that Changed the World'

Year 4 IPC

'They Made A Difference'

The Year 4s kicked off their new IPC Unit by exploring a gallery of influential people, both past and present, who have made a difference to our society. They will be learning about these people in the unit, as they develop their research skills, and reflect upon how the contributions of these people have impacted society in a positive way.

Year 5 IPC

'What A Wonderful World'

For this IPC unit, students learnt all about what our wonderful world is made of, how natural disasters and extreme weather can affect us and how our actions affect the Earth. They looked into different climate zones in Geography, found out how global relief efforts are organised in International Mindedness, and created models in Technology lessons. Overall, students put on an impressive display of their learning experiences.

Year 6 IPC 'The Great, The Bold and The Brave'

Students used their knowledge of Roman and Greek daily life and their understanding of democracy and social classes to create their own Greek or Roman City. They came up with the laws and punishments for their cities and decided how their cities should be ruled based on past successes and failures from Greek and Roman times.

Year 7 IMYC Citizenship Education

With the recent elections as the backdrop, our Humanities Department took the initiative to give a brief yet relevant lesson about citizen education to our secondary students. We felt it was important to give our students balanced and neutral information, not just about Malaysia but also how other countries like China and the US conducted their elections.

It was a thought-provoking session for the students, and it's good to see them thinking and discussing about real-life issues that concern them and their families.

Primary 3D Sculpture Competition

Primary students were challenged to get creative and come up with 3D animal models. They were given a free hand to create with any materials as long as its 30cm tall. Well done to everyone who participated and congratulations to all winners!

Year 1

- 1st Landon Tai
- 2nd Low Kate Xuan
- 3rd Leia Hussain Ishan

Year 2

- 1st Yohanna Thiran
- 2nd Bosco Ng
- 3rd Shwetar Netto

Year 3

- 1st Lee Heejae
- 2nd Tushita Dixit
- 3rd Teioh Wu Yang & Atticus Goh

Year 4

- 1st Eunice How
- 2nd Danielle Marissa Goh
- 2nd Tania Lutfiyya Azmir
- 3rd Tunku Ryan

Year 5

- 1st Leia Ong
- 2nd Hayley Tan
- 3rd Aiden Lee

Year 6

- 1st Arunkathirvel Shanmugasundaram

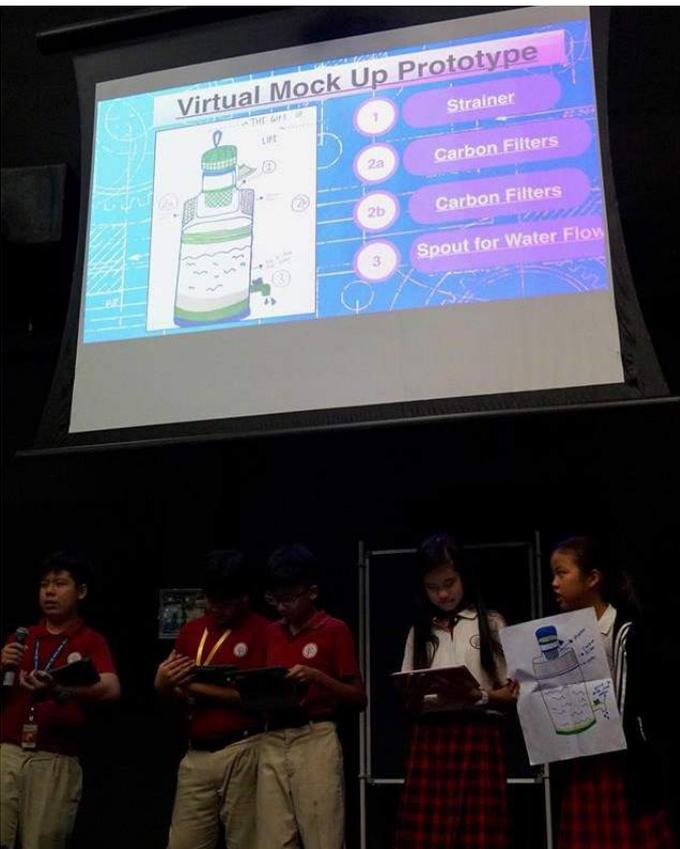

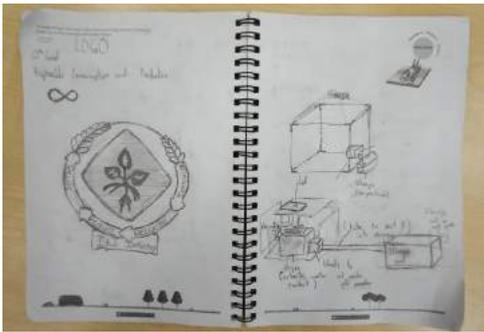

Australian Aboriginal Art & Culture Workshop

YEAR 7 IMYC 'People, Planet, Profit'

The challenge was thrown to our Year 7s to create the next 'big thing' that aims to transform the lives of others less fortunate or addresses a global issue to do with the planet, and they definitely rose to the occasion!

In groups, they decided on and created a company name, logo, vision and mission statement, formulated a product idea, created a digital advert, and prepared and delivered their pitches. We were very impressed with how they took ownership of their projects, and the ideas they came up with. They were given favourable feedback by the external judges, and we are very proud of them.

Adult RM50 Student RM20
Family Package RM130

SECONDARY DRAMA

We welcomed KL Shakespeare Players (KLSP) to HIS to perform 'Romeo and Juliet' to our Year 7 and 8 students. KLSP's unique abridgment of this Shakespeare's play helped the students understand the layers of meaning behind the play, and by using contemporary English, it broke down barriers and gave clarity to the plot.

SECONDARY ENGLISH COLLABORATIVE STORYTELLING

During this annual competition, students in each class all worked together, bringing the stories to life through the use of action, props, gestures and even technology. We were certainly impressed with the creativity, confidence and teamwork shown. Thank you to the English department for encouraging students to express themselves in varied ways.

PCKL YOUTH POETRY SLAM 2018

Congratulations to the Year 7 girls who punched and punned well above their weight in their debut group performance. They made their family, friends and teachers proud! BFM's Elaine Watson presented the evening, which also featured the venerable Marina Mahatir as one of the guest judges. What an opportunity this was for our poets to voice their poetry and really be heard by an all-star panel.

Well done **Elena Foong Shu Xian, Yasmeen Thurayya Azmir, Tee Xuanbei (Naomi), Jaymie Liew Wen Wei and Teioh Nuan Ning.**

FRENCH

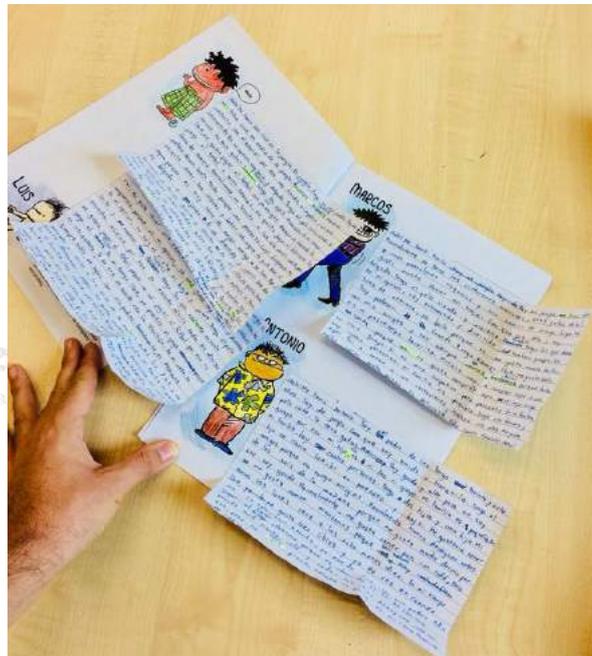

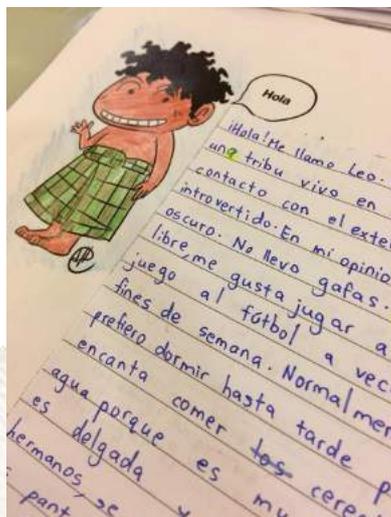

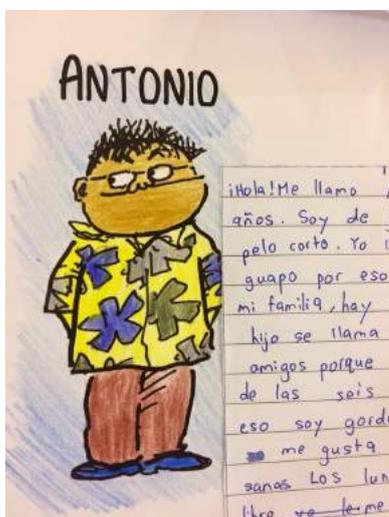

International Language and Culture (ILC) is a new concept in HIS Primary school this year and is unique to HIS. The objective is to make the study of foreign languages more meaningful by relating it to a cultural context and the IPC international goals. Students studied Spanish and French through the context of the culture and traditions of Spanish / French speaking countries. Here, the Year 5s had fun learning the French language with a bingo game to pick up new vocabulary! Bien joué!

A wonderful example of teaching a foreign language in a Malaysian context! Our Year 9 Spanish language students had a written Continuous Assessment to assess how well they were able to express in Spanish at this point in the term, talking about personal information, daily routines, likes and dislikes, opinions, family and free time activities. They wrote about the characters of El Niño del Pueblo (translation of The Kampung Boy by Lat) in first and third person! ¡Bravo

SPANISH

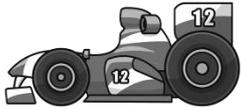

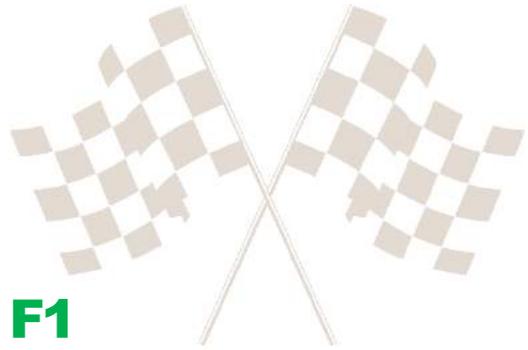

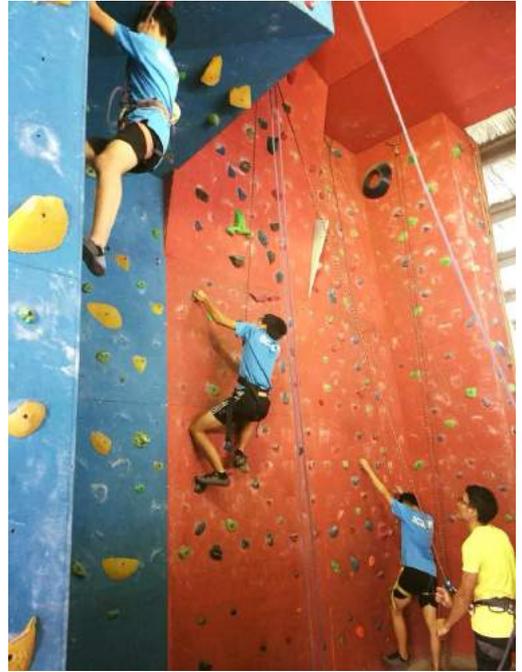

IGCSE PE

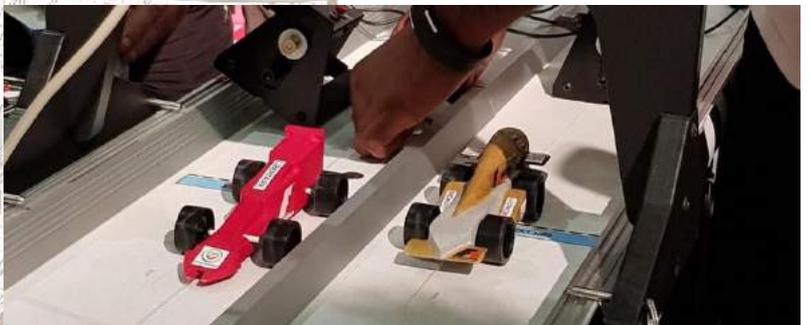

Our year 10 GCSE PE students took part in a rock climbing session today. Students were given the opportunity to do rock climbing, bouldering, learn rope skills and belaying!

This session is for them to work towards the Practical element of their coursework. They exhibited good discipline, had a great learning attitude and showed lots of courage.

DESIGN & TECHNOLOGY: F1

Year 9 are now F1 racers. In conjunction with the 'F1 in Schools International Competition' based in the UK, students follow technical guidelines and specifications to create a model racing F1 car. Students must 3D design the car from scratch, using flow simulation programs to run aerodynamic tests. The car is then CNC machined and prepared for real racing. Students must also work in a racing team to create a brand identity and merchandise. All this is accomplished the monetary sponsorship from real companies in the local city. Once all items are ready, students aim to compete at an international level for the fastest record and a trip to the real F1 racing event.

FIELD TRIPS

Year 9 & Year 10 Bahasa Malaysia Trip to Kuching

Besides experiencing the various cultural attractions around Kuching, students also had the opportunity to visit our sister school, Tunku Putra School.

Year 6 Residential Trip to Penang

Year 5 Field Trip to Forest Research Institute Malaysia (FRIM)

Year 5 went on a very successful trip to FRIM. Students explored the jungle and found out about local flora and fauna. They were able to use their learning from their current IPC unit, 'What a Wonderful World' to recognise how important it is to look after the environment as well as use their map reading skills learnt during the unit, 'The Holiday Show', while they completed a treasure hunt in the forest.

Year 10 Business Studies Trip to Royal Selangor Pewter and Beryl's Chocolate Factory

Year 4 Field Trip to Mah Meri Cultural Village, Pulau Carey

Eco-Schools Committee Update

It has been an very productive half-term for the Eco-Schools Committee in raising awareness of the need to 'reduce and recycle', not just amongst the students but also in the wider HIS parent community. Parents were invited to a student-led DIY Parent Workshop, where they learnt how to make No Sew T-shirt tote bags, DIY eco-enzymes and eco-bricks. The Eco-Schools Committee students were extremely helpful and knowledgeable, and it was certainly an eye-opening session for the parents.

We are so glad that we have parents who are like-minded, and supportive of our endeavour to promote environmental and sustainable developmental education . Well done everyone, keep it up!

Well done to all students, staff and parents who participated enthusiastically in the recent House 'Refuse/Reduce' Competition. Although the competition is over, we will still be continuing to run the campaign and we encourage the wider HIS community to embrace in making it a greener environment for all.

1

REFUSE that container! *BYO*

Total number of containers refused: **232**

★

Winner	Phoenix	83
2nd	Dragon	59
3rd	Pegasus	56
4th	Griffin	34

2

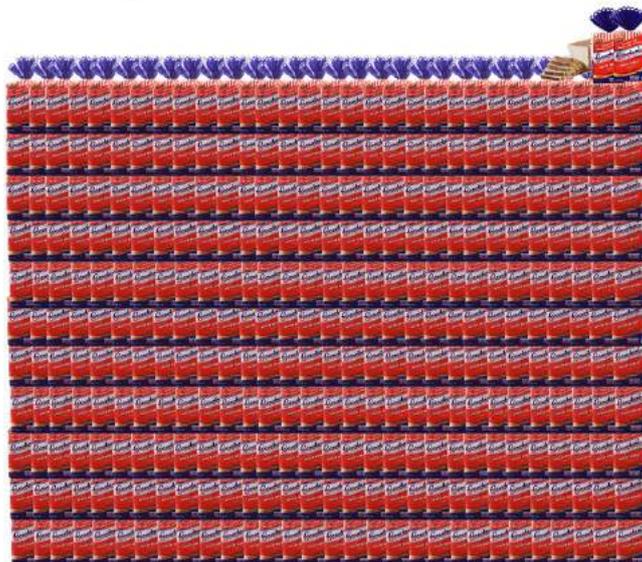

'REDUCE your waste - empty your plate'

Total amount of food waste: **132.9KG**

★

Winner	Phoenix	31.10KG
2nd	Pegasus	31.80KG
3rd	Dragon	34.60KG
4th	Griffin	35.40KG

133kg of food waste = 332.5 loaves of bread

Co-Curricular Activities (CCA)

Robotics CCA

Students made a long maze then voted on whether they should solve it individually as one long piece of code or simultaneously with different bots solving different pieces of the puzzle individually at the same time. Robots are resilient and cooperative, so they chose the simultaneous version of course!

Wind Turbine CCA

The quest to make the best wind turbine continues....

With a lot of support from the Design & Tech team, the students designed their own blades, built basic turbines, then tested them enthusiastically. They discovered that air pressure is a friend and friction on the turbine shaft is the enemy. One step closer to meeting their objective of building a productive and cost-effective wind turbine for school.

Astronomy CCA

"A long time ago in a galaxy far, far away....", The astronomy club students had a very interesting time making their own asteroids and galaxies map. Subsequently, having coded the dot and dash robots, they witnessed how the robots maneuverer the galaxies. Now where are R2D2 and CP30?

CONNEXIONS

In 5 years, HELP International School has seen some 1,350 students come through our doors. Our Alumni base is growing as our Year 11 and A-Level leavers venture off on new academic adventures.

In this feature, we speak to some of them to find out what they have been up to.

CHRISTINE LEE
(2014 - 2016)

I joined HIS in Year 9 and was part of the pioneer batch of IGCSE students who graduated in 2016.

My most vivid memory from my time at HIS was performing in HIS first drama production called 'A Midsummer Night's Dream'. I remember having so much fun with the other actors and actresses during rehearsals and production days.

After completing my IGCSE at HIS, I went on to do my IB Diploma for two years. It was undeniably a tough experience as I had to keep up with constant assignments, activities and responsibilities, but I thank God for seeing me through it all. I learnt how to manage a tight schedule and thrive under pressure. I also made lifelong friends who supported me throughout the two years.

For the next four years, I will be pursuing the World Bachelor in Business (WBB) program on a partial merit scholarship. This is a unique 4-year business programme between three universities. I will be spending my first year in the University of Southern California (USC), my second year in Hong Kong University of Science and Technology and my third year in Bocconi University in Italy. I will most probably choose USC for my fourth year. Although I am sad to leave my family and friends here in Malaysia, I am very excited to embark on this new journey and meet new people.

This is the advice that I would give to my HIS juniors: Enjoy your high school life. Treasure the friendships and the meaningful moments. Try as many things as you can and make use of every opportunity. Find out what you like and what you don't. It's okay to make mistakes. Work hard and be humble. Be a blessing to the people around you.

WHERE DID THEY GO?

Our leavers are now off on new and exciting adventures, gaining new experiences and making new friends.

Here are just some of the universities where you may find them:

- ★ University of California, Los Angeles, USA
- ★ University of California, San Diego, USA
- ★ Purdue University, USA
- ★ Royal College of Surgeons, Ireland
- ★ University of Sterling, Scotland
- ★ University of Birmingham, UK
- ★ University of Nottingham, UK
- ★ University of Nottingham, Malaysia Campus
- ★ University of Southampton, UK
- ★ University of Southampton, Malaysia Campus
- ★ HELP University, Malaysia
- ★ Heriot-Watt University Malaysia
- ★ Monash University, Malaysia Campus
- ★ Taylor's University, Malaysia
- ★ Fo Guang University, Taiwan

LOH RACHEL
(2014 - 2015)

During my A-Level days at HELP International School, I had the opportunity to work in various teams and volunteer with youth leaders across ASEAN. The people whom I met during these experiences had intrigued me immensely. With that, the decision to study Psychology, the study of the human mind and behaviour, at HELP University came quite naturally. Currently, I am in my final year on a full scholarship by HELP University and have recently completed a sustainability consulting internship with PwC Malaysia.

Performing in the annual school play, Shakespeare's 'A Midsummer Night's Dream', as Hippolyta is definitely one of the most memorable experience. Acting had given me a great avenue to recharge after a long day of classes and a wonderful support system to fall back on when the going got tough. Aside from the more creative pursuits, my time as Head Girl and Secretary-General of the HIS Model United Nations Conference has been very fruitful because of the number of students my team and I had been able to empower.

To all present students, I would say "Don't sweat the small stuff and focus on what matters most." It is important that we prioritise our time wisely and use it well to reach our goals. Also, get out there, get active and live life in all its fullness! As the saying goes, "If you want something you have never had, you have to be willing to do something you have never done."

Rachel was the Maybank Go Ahead Challenge 2017 Global Champion! She topped the pool of 40,000 applicants and won an internship with Maybank New York!

VIKNESWARAN RAJ
(2015 - 2016)

Currently, I am in 2nd Year MB,BCh,BAO Medicine, Surgery and Arts of Obstetrics at the Royal College of Surgeons in Ireland.

University life has been exhilarating. Medical school life was overwhelming at first but you get the hang of it once you have settled in. I was trying out all sorts of activities when I first started. Finally, I found my own niche. I was very fortunate to be appointed to the UN Youth Council to represent Asia. One thing led to another and then the position of Vice Chairmanship of UKEC came along. I was also blessed to be part of the IYLA community and many other regional organisations. This summer, I decided to dive deeper into the medical front and I got myself a spot to do research with the RCSI Summer Research school. This is pretty exciting because I would get a publication at the end of it.

Academics aside, it was the ethics and the values imparted during the leadership course at HELP International School that made a difference. HIS was the point of initial change which got me thinking not only about a job for the future but a career path. The whole course at HIS is outcome-driven and it gave me a solid platform to start off with.

To my juniors at HIS, I would say "Enjoy your school and university life. This is the part of your life when you can do simply anything (hopefully it's something positive). It's like a training ground where there is still room for failure and for trying new stuff without too much pressure. So go out there and immerse yourself with the opportunities. Explore what life has got to offer and explore your interest. Embrace Life in all its fullness."

TEACHER/STAFF APPRECIATION DAY

May 15

A big thank you to all students and parents for your contributions towards the Teachers & Staff Appreciation Day breakfast. Our teachers and staff were very moved by your generosity and support. Our guards, cleaners and café workers felt appreciated by your kindness too.

YEAR 11 LEAVERS' ASSEMBLY

April 20

Special thanks to all the teachers and staff for their words of support and encouragement.

To our Year 11 students, we wish you all the very best in your future lives ahead. Always remember that 'we cannot all do great things, but we can do small things with great love.'

KS2 HOUSE MUSIC

May 7

Well done to all who took part. Indeed, the judges were impressed with the talent

- ★ 1st Pegasus
- ★ 2nd Griffin
- ★ 3rd Dragon
- ★ 4th Phoenix

KS1 HOUSE COMBINED EVENTS

April 18

STUDENT CORNER

EXTERNAL STUDENT ACHIEVEMENTS

If you would like to share any external student achievements with us, please fill up the form found in the Google link:

<http://bit.ly/HISExternalAchievements>

TEE NING MARN (CLAIRE) (Year 2)

SEAMO (SOUTHEAST ASIAN MATHEMATICAL OLYMPIAD)

19 November 2017, Thailand

- ★ Bronze—Paper A (7-8 years)
- ★ Claire sat for the paper at the age of 6.

TEE KAI MARN (KATE) (Year 6)

SHUDDUP N DANCE JUNIOR SHOWCASE COMPETITION 2018

25 March 2018, Ipoh

- ★ Kate is one of the crew members of the Mitzi Kid.
- ★ Champion in the junior showcase, defeating other 9 teams.

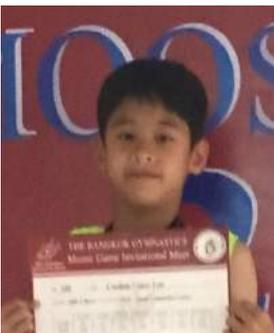

CASSIDY TAN JIA XIN (Year 2)

SHOIN CUP 2018

26 March 2018, Japan

Category: Individual Pre-Junior A 2011

- ★ 5th Overall Champion

CAEDON LOO (Year 6)

THE BANGKOK GYMNASTICS MOOSE GAMES

31 March 2018, Thailand

- ★ Floor - Gold
- ★ High Bar - Gold
- ★ Parallel Bar - Gold
- ★ Pommel - Gold
- ★ Rings - Gold
- ★ Vault - Gold
- ★ Overall - Gold

SAMUEL AARON JAYASIRI (Year 6)

AIR ASIA LEAGUE

13 May 2018, Malaysia

- ★ Position: Defender
- ★ Team won 2nd place in U12 PLATE

CHLOE BAYLY (Year 3)

SPARTAN JUNIOR SINGAPORE 2018

24 March 2018, Singapore

- ★ Participation medal in first Spartan Junior Race

TARA BAYLY (Year 6)

TAN E XUAN (BERNICE)
(Year 4)

**THE BANGKOK GYMNASTICS
MOOSE GAMES**

31 March 2018, Thailand

- ★ Gold on Bar, Beam, Foor and Vault

OISIN MACARTHUR
(Year 9)

**MYPW RESURGENCE
PROFESSIONAL WRESTLING**

31 March 2018, Malaysia

- ★ Chosen to represent the Malaysian Professional Wrestling Organisation (MYPW) at their recent live international event - 'RESURGENCE'

Light of the Races

Malaysia is a melting pot of cultures. I've used the iconic colours of Google (red, green, blue and yellow), to incorporate the different races of Malaysia that makes us such a diverse country. Each design represents not only the race, but it's cultural influence, and how although we are all so diverse, we are still Satu Malaysia.

TAN XUEN XUEN (CLAUDIA)
(Year 2)

**THE BANGKOK GYMNASTICS
MOOSE GAMES**

31 March 2018, Thailand

Category: Level 2

- ★ Ranking gold on Bar, Beam, Floor and Vault

BRYANT NG CHEE HSUEN (Year 11)

HOOI LIT YOONG (Year 11)

MIKHAEL NAIM LEONG KWAN YEAN (Year 11)

TEH NIAN YII (Year 11)

FERMAT MATHEMATICS COMPETITION

April 2018, Malaysia

- ★ Achieved over 100 points in the competition

AMANDA LIM YANN YI
(Year 10)

GOOGLE DOODLE COMPETITION 2018

May 2018, Malaysia

Category: 13-15 years

- ★ Age group finalist

FONG SHIR-NING (Year 7)
ANNABELLE LEE PHEN (Year 4)
OH JOONWON (Year 7)
AIMS YOUNG MUSICIANS COMPETITION
 25-26 April 2018, Malaysia

Well done for the amazing performances at the recent AIMS Young Musicians Awards. As first-time participants, these students did extremely well competing against musicians from 25 different international schools from all over Malaysia. The standard of the musicianship was exceptionally high and you should be proud of yourselves.

TAN YU SHEN (Year 5)
KANGAROO MATHS COMPETITION
(AUSTRALIA)
 16 March 2018

★ Gold - Year 5

TAN YU SHAUN (Year 3)
KANGAROO MATHS
COMPETITION (AUSTRALIA)
 16 March 2018

★ Honorable Mention - Year 3

JOEL WEI-ERN NARESH (Year 7)
NATIONAL BADMINTON CIRCUIT
ROUND 2
 2-6 May 2018, Malaysia

★ Joel was selected to represent the state of Putrajaya for the tournament

YAP JO SHIN (Year 3)
YAP JO CHEN (Year 3)
YAP JI WEN (Year 4)

Three siblings from our school sold 245 copies of their poetry books and raised RM4,000 for Manna Learning Centre, a refugee school and My Father's Home, an old folks home.

"Never doubt that a small group of thoughtful, committed people can change the world. Indeed, it is the only thing that ever has." ~ Margaret Mead

TEIOH NUAN NING (Year 7)
PCKL YOUTH POETRY SLAM 2018
 20 April 2018

★ 3rd place in the Solo Secondary category
